ABOUT JAIPUR

The famous city of Jaipur is the capital of Rajasthan and is universally known as the "Pink City", and pink it is, with beautiful constructed palaces, temples and forts. Tall, rugged men with handle-bar whistles sport bright pink turbans. Jaipur which means the city of victory was built 276 years back and is 262 km by road from Delhi (capital of India). A strong wall encircles the old city, protecting all within.

Built in year 1727 by Sawai Jai Singh II, Jaipur was the first planned city of its time (the earlier planned city in northern India having been built near Tattia sometime in the 2nd century BC). Jaipur was planned by Vidyasagar Bhatnacharyya, a Bengali architect, in a grid system with wide straight avenues, roads, streets and lanes and uniform rows of shops on either side of the main bazaars, all arranged in right-angled rectangular city sectors (chokris). The city itself is an effective creation worthy of universal admiration.

Jaipur is predominantly known for its musicians, artisans and craftsmen and fairs and festivals. It has attractive monuments where one can breathe the fragrance of history. Comfortable and luxurious hotels, once the pride of kings, parks, gardens, and excursions to nearby places of interest, make Jaipur a tourist's paradise. Some of the most visited tourist destinations are Hawa Mahal, Amber Fort, Janartana, City Palace, Nahargarh Fort, Jaggar Fort, Jai Mahal, Albert Hall, B.M. Birla Planetarium, Govind Deva Temple, Lawmi Narayan Temple, and Gaitor.

The landscape of Jaipur is dotted with numerous temples. One can find temples in almost every street. It is because of the religiously among people that it is also referred as Chhoti Kashi. The city also has beautiful gardens and parks. Prominent among them are Ram Niwas Gardens, Sisodia Rani Garden and Palace, Vidyasagar Ka Bagh, Konak Vridhavan, Central Park, Jawahar Chirag Gardens and Technology Park.

Jaipur is a centre for both traditional crafts and modern industries. It is famous as the largest exporter of Gold, Diamond and Stone Jewellery in Asia and the only city finishing blue diamond or called Tanzanite in the world. With changing times, Jaipur has evolved as a centre of learning. A large number of professional education institutions have come up in the past decade to provide quality education to the youth.
