**Profile:** Beatles is a startup company that specializes in creating audio products such as speakers, airdopes, and smartwatches. The company was founded with the aim of providing high-quality audio products that are both stylish and affordable. As a startup, Beatles is driven by a team of passionate individuals who are dedicated to creating innovative audio products that cater to the needs and preferences of modern consumers. The company places a strong emphasis on research and development, constantly striving to improve its products and stay ahead of the competition. One of the key strengths of Beatles is its commitment to quality. BEATLES has been recognised as a startup by MSME UDYAM with Udyam Registration Number "UDYAM-RJ-17-0253715". The company uses only the best materials and components in its products, ensuring that they are durable and long-lasting. In addition, the company places a strong emphasis on design, creating products that are not only functional but also aesthetically pleasing. The company's audio products are designed to be compatible with the latest technology, including Bluetooth, voice assistants, and smart home systems. This allows users to easily connect and control their audio devices from their smartphone or other smart devices. Beatles has also ventured into the smartwatch market, offering a range of smartwatches that are designed to be stylish and functional. These watches come with a range of features, including fitness tracking, message notifications, and voice control. Beatles is serving its clients with motto "BEATS WITH YOU" with new technologies and services.
