Faculty Involved: **Rishabh Singh Sambyal**
Department: **Architecture**
School: **School of Planning and Architecture**
Subject: **Photography**
Year/Sem: **B.Arch- I yr / I Sem**
Number of students attended: **56**
Venue: **Ground floor auditorium, Poornima University.**

Special guest lecture was organized for architectural students on photography on 15/11/14 Saturday by Mr. Hitesh Advani.

The basics of photography were already taught and practiced by the students, but an external input was required in understanding the different perspectives of photography.

The main aim of this lecture was to give the students an opportunity to interact with a professional photographer and to provide them with an external exposure on the subject.

The lecture mainly focused on the following agendas:

1. Presentation of work by Mr. Hitesh Adwani.
2. One on one interaction with the students.
3. Discussion on photography as a hobby and as a profession.
4. Discussion on Architectural Photography - its need and requirements for the same (Skills and Equipment).

The students enthusiastically assembled in the auditorium by 8:30 AM and the lecture started at 8:40 AM and ended around 10:20 AM.

There was no great response by the students as very few questions were very few questions were put up by them but in a nut shell the whole exercise had a positive result. At the end of the lecture Mr Hitesh Adwani praised the students for their clarity and understanding of the subject. It would be a pleasure to organize more such lectures and photography trips in the near future.
