

# POORNIMA UNIVERSITY

## GUEST PRESENTATION

Guest Faculty: Presentation by Mr.Sudhir Mathur, M.E (Mech)

Subject: Building Services

Lecture Co-Ordinator: Prof. Preethi Agrawal

Topic of Presentation: Efficient Plumbing Services

Objective: To get the consultant's perspective on Plumbing Services and the co-ordination required between an architect, his design and the need to incorporate services.

Date: 13th October 2014

Time: 1.00 PM to 3.30 PM

Venue: Seminar Hall, SPA, PU

Audience: Third Year and Second Year, SPA, PU.

Exercise: A previously floated exercise of working models on plumbing and sanitation to be judged by Mr. Sudhir Mathur.

Mr. Sudhir Mathur spoke to the students on the general importance of Building Services and compared a building to be analogous to the human body and compared the systems of the human body to the building which he called a LIVING SYSTEM.

He then made a powerpoint presentation on Efficient Plumbing Systems and alternately showed pictures of sites that he has designed and implemented, through which he explained various plumbing and sanitation appurtenances. He also explained aspects of fire safety, solar heating and filtration and softening processes.

The presentation culminated in a Q and A session with the students.
