CONTENTS OF LECTURE:

- Topic 1: Sciography
- Topic 2: Light and Shadow
Along with practical work

OUTLINE OF LECTURE (DESCRIPTIVE):

The lecture was useful for students as a PowerPoint presentation was shown on Sciography, light and shadow along with various examples sketched by an expert on black board, followed by studio work performed on sketch files by students under the guidance of Kajal Thakuriya ma'am. It was an interactive session where students asked their doubts.

During the presentation by an expert to II year students

Students doing live sketching under the guidance of an expert

CONCLUSION: The lecture was successful. Students got an opportunity to gain knowledge about Sciography and also to clear their doubts by an expert.
