

POORNIMA UNIVERSITY

11th March 2016

Report On two Day Workshop On Human Anatomy

A very informative workshop on “**Human Anatomy**” was conducted at **Poornima University** on **8th & 9th March 2016** for **BFA students**. The resource person was from BHU & NID. Students were much benefited from this workshop and got chance to learn to put more input in foundation basics. Students from other schools were also invited for the workshop. Both fashion design & architecture department students attended the workshop.

This workshop was intended to be a guide through the world of Human anatomy and animal anatomy. Careful practice of the principles documented in this workshop will improve student drawings more than copying the drawings used to demonstrate these points. There are few things in art more challenging than drawing is the human figure.

Methodology:

Date	Session	Activity
Day 1 st	One and two	Introduction of Human Anatomy, Uses of Human anatomy in different sector, Skeleton study, Muscles study,
Day 2 nd	One and two	Characteristic of Gesture, form & structure, movement over form, depth and perspective, volume, line of action
