## SCHOOL OF PLANNING AND ARCHITECTURE

### VISIT TO DOORDHARSHAN OFFICE, JAIPUR

Date: 01-May-18

Faculty coordinator: Ar. Vibhor Gupta (Assistant Prof. S.P.A, PU)

Student participated: 10 students from B. Arch. & 05 students from b.tech department  
Departure time: 11:00 a.m

In morning at around 11 o'clock 15 students from of B. Arch and B. Tech department along with a faculty coordinator left Poornima University campus for event "Dishayein held at Doordharshan Rajasthan".

The students were supposed to participate in an interview of **Dr. Rajiv Sharma, Secretary, Science and Engineering Research Board** on the topic of "research funding for upcoming areas" to be held at **Doordarshan Kendra, Jhalana Doongri, Jaipur.**

The bus along with students and faculty reached the Doordarshan office at around 11:45 am then we moved towards their interactive room and after refreshment we visited their studios and control room. Mr. Manoj Kumar from technical staff explained in detail to our students starting from the collection of data to transferring of news on AIR including the editing part.

Afterwards around 12:00 o clock we had a basic touchups and rehearsal for the interview and we were explained our do's and don'ts of being on "LIVE AIR TELECAST"

Before starting the live interview we had a small interaction with respected guest **DR. RAJIV SHARMA**. The interview was moderated by **Prof. Puneet Sharma.**

As it was a live telecast so there is no chance for the mistake and everything has to go as per the schedule. The live telecasting of the interview started at around 12:15 pm during the session we got to know the various schemes launched by Government of India for research and funding from rural to urban to national level, like schemes under DST ( department of science and technology) and SERB (Science and engineering research board), IGBP (International geosphere-biosphere Program etc.

During the interview our students and faculty were given a chance to quench their queries and confusions related to research field and funding by Dr. Rajiv Sharma.

Our students show a deep interest in research programs and based on their interest areas the questions included how, where and to whom one should apply for any particular research area of interest under these government schemes.

The interview closed at 1:00 p.m. and afterwards students had a one on one discussion with the guest and again Dr. Rajiv Sharma answered very politely and shared his vast knowledge and experiences of life in the field of research

We are really thankful to **Dr. Rajiv Sharma** for giving his precious time and sharing his experience and knowledge with our students and motivating them for doing something innovative for larger masses/ society. He also explain that there is a lot of scope professionally in research and the growth options are enormous.

We are also thankful to **Doordharshan Kendra, Jaipur and Prof. Puneet Sharma** for this opportunity and platform provided to our students which help them in developing their confidence level and interest in research areas.

We are also very thankful to POORNIMA UNIVERSITY, respected provost DR. MANOJ GUPTA and H.O.D, S.P.A for giving us a national platform.
